

IU SCHOOL OF MEDICINE AND RADIOLOGY DEPARTMENT COMPLETION OF TRAINING POLICY

When your training is completed, be sure your department and the Office of House Staff Affairs know your forwarding address. Fringe benefits, particularly professional liability and health insurance, will end at the training-end date.

An appropriate certificate of training will be provided upon satisfactory completion of the education and training program. If you transfer, e.g., from General Surgery to Neurosurgery, ask the department to order your certificate in General Surgery at the time of transfer. If training is all in one department, certificates will be ordered at the final completion date, including regular and sub-specialty titles and dates. In requesting certificates from your department, check to be sure that your name is spelled exactly as you wish and that dates are correct.
